### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art of record taken singularly or in combination teaches or suggests:

- \* receiving an initial request from a user device during a current session between the user device and a proxy server, terminating the current session if the initial request is to a secure server, and establishing a tunnel through the proxy server, between the user device and the secure server, via a trusted domain proxy/firewall, upon receipt of a further request from the user device to access the secure server if the initial request is to a secure server (claims 1, 14, 27, 40);
- receiving an initial request from a user device during a current session between the user device and a proxy server, terminating the current session if the initial request is to a secure server, and upon receipt of a re-sent request by the user device to the proxy server within a predetermined time, opening a socket with a trusted domain proxy/firewall and mapping the socket with an inbound socket opened between the proxy server and the user device (claim 41).

1.1. The applicant is advised to correct the minor errors in the claims such as, claims 31 & 34, line 1, the word "method", should be replaced by -- proxy server --, claim 37, should have been depend on claim 28 not claim 1, claim 40, line 11, the first occurrence of the word "the", should be replaced by -- a --.
